

Introducing Jamble

An entirely new way to create, record and share music on your iPhone or iPod Touch.

Jamble makes it easy to instantly create flawless music mashups. Within seconds, Jamble makes you sound like a pro-DJ and mash-up master.

You can record your mixes and share them with your friends on Facebook, Twitter and via email.

No experience? No problem.

With the touch of a finger, you're combining a variety of loops from international hit songs into your own impossibly great mixes.

Mashups made easy

Jamble's *point-and-mix* interface comes loaded with some of the greatest, most mashable music... from old school to the latest hits, including:

The Pussycat Dolls - When I Grow Up
Kardinal Offishall - Dangerous (feat Akon)
Gorillaz - Feel Good Inc.
Dirty Vegas - Days go By

Gwen Stefani - What Are You Waiting For
David Bowie - Fashion
MC Hammer - Can't Touch This
A Skillz and Krafty Cuts - Come Alive Now

More music, more fun

Expand your arsenal of loops with new **Jamble Loop Packs** to create even more of your own dance floor-filling anthems. Each Loop Pack comes loaded with 16 new loops that can be downloaded directly from within the app. Featured artists include: **Lady Gaga, Will.i.am, Kylie Minogue, Asher Roth, The Killers, No Doubt, All American Rejects** and many more.

WIRED has featured Jamble as one of the best ways to produce music on an iPhone:

"...it's just too fun not to include here. Plug this in at your next dance party and see what happens."

- WIRED

"Jamble is pure fun and unbelievably addictive. This will be the next must-have interactive music app for the iPhone."

- Adrian Amodeo, Director, Film & TV Marketing, Interscope Records
